To order any of the above kits, please contact lisa@quickquilt.com.au for a quote

- Prices include delivery (inside the continental US), installation, demonstration, training and warranty on parts and installation labor (currently without time limit). Customary travel expenses may be charged by installers.
- As a unique service from IntelliQuilter, the prices also include one year of continuing support by a dealer, providing not only technical assistance, but quilting advice, pattern design suggestions and more.
- Installation kits include mechanical parts that are required in order for the IntelliQuilter system to function at optimum performance on a given quilting machine. EdgeRider Wheels are required and sold as part of the installation kit for Gammill, APQS, HQ Sixteen and Innova quilting machines. EdgeRider Wheels can be purchased separately.
